

## Bluemont Consulting supported the Science4Life Venture Cup

Munich, May 6<sup>th</sup> 2019

Bluemont Consulting has supported the Science4Life Venture Cup on its business plan contest. Science4Life is a German initiative to support founders of start-up companies in the field of Life Sciences, Healthcare, Chemistry and Energy. Main sponsors of Science4Life are the Government of the State of Hesse and the global healthcare leader Sanofi. The Science4Life Venture Cup is an annual business plan competition for start-ups in the Life Sciences, Chemistry, and Energy area. The spectrum of network partners covers all relevant areas for entrepreneurs to establish their new company. This includes lawyers, management consultants and managing directors of biotech companies, as well as renowned researchers from academia and industry. Bluemont Consulting has been network partner of Science4Life for more than 5 years.

### ABOUT US

Bluemont Consulting is an international owner-managed management consultancy. We advise international companies from strategy development to successful project execution. Industry leaders, medium-sized companies and private equity companies rely on our services.
