

Industry: Energy infrastructure services

BlueMont supports Nalka in the acquisition of Anlagen-Montagen Werder GmbH with a Commercial Due Diligence

19 August 2026

Nalka has entered into an agreement to acquire Anlagen-Montagen Werder GmbH (AMW), a full-service engineering and service provider specializing in electrical power infrastructure, based in Werder (Havel), Germany. AMW delivers end-to-end solutions for high-, medium-, and low-voltage systems, supporting utilities and industrial customers with the planning, construction, installation, commissioning, modernization, maintenance, and servicing of electrical substations and switchgear. Founded in 1994 and headquartered in Werder (Havel), Germany, AMW has a strong position in North-East Germany, while also delivering projects and services nation-wide, and internationally.

BlueMont Consulting supported Nalka on the buy-side by conducting a Commercial Due Diligence. The project team comprised Markus Fränkel, Sascha Vollmerhausen, Alexander Mooser, and Nils Bohne.

About AMW

AMW is a full-service engineering and EPC service provider specializing in electrical power infrastructure, based in Werder (Havel), Germany. The company delivers end-to-end solutions for high-, medium-, and low-voltage systems, supporting utilities and industrial customers with the planning, construction, installation, commissioning, modernization, maintenance, and servicing of electrical substations and switchgear.

About Nalka

Nalka is an investment firm focusing on developing long-term competitive businesses in the Nordic and DACH regions. Nalka has offices in Stockholm and Munich and is owned by Interogo Group, a foundation-owned investment group based in Switzerland.
